

**Seasons Greetings!** In our final newsletter for 2016 we wish you all a Merry Xmas and happy New Year. We would like to share some of the new features included in the newest SupaTools updates.

### 2-Factor Authentication

Access to SupaTools can now be protected with 2 Factor Authentication using the **Google Authenticator** application. This can be used to protect both regular logins and access to the /admin DBA menu.

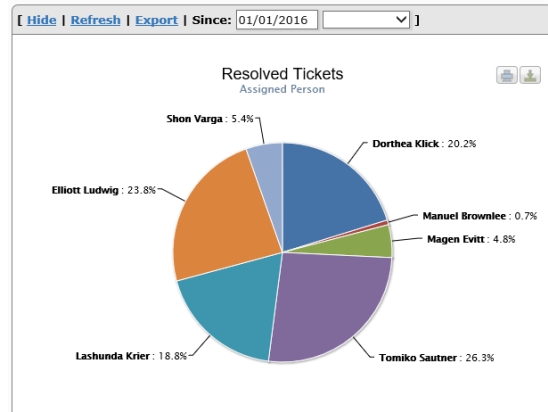

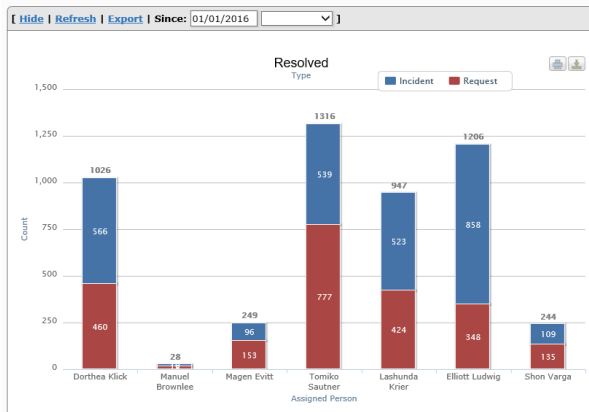

### Improved Notes

Entry of Notes has been improved for direct copy & paste of both text and images.

Note type: **Comment** (FYI, Question, Reply)  
 Send E-mail to: **Affected User: Argelia Spurgeon**, **Assigned Group: IS Operations**, **Assigned Person: Manuel Brownlee**, **Created By: Ramon Shankles**

### Improved Graphs & Charts

Support for stacked charts, improved pie charts and more to come.

### SupaRELEASE

Our **SupaRELEASE** module improves Release Management processes and lowers risk for software deployments. An effective **DevOps** tool!

### Future Integrations

We'll be working on more integrations with great discovery tools like **modelizeIT** to auto-populate our CMDB.

Completion by end Q1 2017.
